BASIC INFORMATION ABOUT SERVICES

General information on the document

Dear Clients, this document contains a summary of information you need to know when sending international consignments. The introduction briefly lists the countries and available services, with a link to each country offering complete information in tables easy to navigate through. This interactive document makes it easy to find further information as well, by clicking on the hypertext links. For information only. This English version of the document is for information only and is not legally valid. In the event of any discrepancies between the Czech and English versions, the Czech version shall prevail.

DTS

The Postal Terms and Conditions for each country have been altered starting from January 1, 2026 to reflect changes in the exchange rate of the currency unit SDR (currency code: XDR) set by the Universal Postal Union as an XDR/EUR equivalent to calculate the remuneration for international mail flows between postal operators. The exchange rate set by the Ministry of Industry and Trade of the Czech Republic for 2026 is **CZK 30,2555**.

You can find the conversions at www.ceskaposta.cz

Size of international consignments

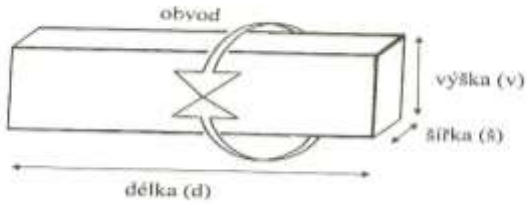

The general provisions of the Postal Terms and Conditions governing the size of international consignments (Art. 122 – Standard Parcel and Art. 123 – Insured Parcel) have been rephrased to allow for a more precise measurement of the maximum acceptable dimensions:

“the combined length and girth measured otherwise than lengthwise.”

A shorter version is included in the Foreign Terms and Conditions for each country:

“the sum of length and circumference“.

The sum of length and circumference = L + 2 x (H + W)
